

# ADVERTISE WITH

This exclusive placement gives your company the attention it deserves in front of thousands of Civil Engineers in the State of Texas

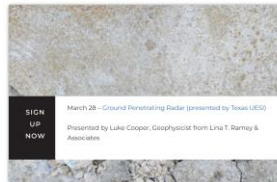

## Webinars

ASCE Texas Section Webinars are quality and engaging continuing education sessions that you can view from the comfort of your office or home. Delivered by leading experts, these sessions will provide the latest information on a variety of technical subjects relevant to Texas Section members' interests.

Please note, the Texas Board of Professional Engineers & Land Surveyors (TBPELS) does not pre-qualify courses of instruction for Professional Development credit. Please refer to the TBPELS site to determine the sufficiency of those continuing education sessions and requirements for keeping your records.

If you are a Life Member of the Texas Section, please email the Section Office to learn how you can watch our sessions for free.

## Cost

ASCE Texas Section Webinars are quality and engaging continuing education sessions that you can watch from the comfort of your office or home. Delivered by leading experts, they provide the latest information on a variety of subjects.

Registration fees range from \$0 to \$50 per person for Texas Section members, Life Members and Student Members may register for free. Please check the individual sessions for specific pricing. Groups of five or more should contact offices@asce.org for special discounted pricing.

## Sponsorships

ASCE Texas Section Webinars are an effective way to grab the attention of members by supporting education on best practices, effective solutions, and quality resources to advance the civil engineering profession. Webinars typically run 60 minutes in length.

Benefits include a 3-minute speaking or video opportunity before the educational content, company logo and website link included in TexasASCE Webinar marketing, company logo included on the webinar event page of the ASCE Texas Section website, and more!

## Schedule

ASCE Texas Section Webinars are held at noon on the second and fourth Tuesdays of every month unless otherwise noted. For any scheduling questions, please contact Texas Section VP for Technical Affairs, Mark Boyd PhD, PE at [VPTECH@TexASCE.org](mailto:VPTECH@TexASCE.org).

### Webinar: Ground Penetrating Radar (presented by Texas UES)

Description: This session will present Ground Penetrating Radar as a non-destructive, near-surface geophysical method for detecting and characterizing subsurface features. Topics include: theory, applications, advantages and limitations, and case project examples. Speaker: J. J.

### Webinar: Geotechnical Considerations for the Design of Bridge Structures

Description: This session will present geotechnical considerations for the design of bridge structures. The session will help you understand the basics of geotechnical engineering as they relate to bridge design. Speaker: J. J.

ASCE Texas Section supports and encourages the equitable opportunity for participation of all people within the civil engineering profession without regard to race, ethnicity, religion, age, gender, sexual orientation, nationality, or physical challenges.
